INDEX

ABSORPTION, intestinal, lyotropic series and, 490.
——, subcutaneous, in adrenalectomized rats, 153.
Accelerator effects, vagal, on cardiac rate, 42.
Acetyl-choline and ventricular fibrillation, 675.
Activity in gonadectomized rats fed pregnancy urine, 499.
Adrenalectomized rat, subcutaneous absorption in, 153.
Adrenalectomy and metabolism of excised tissue, 348.
AISNER, M. See KING, SIMONDS and AISNER, 573.
ALLEN, E., A. W. DIDDLE and J. H. ELDER. Theelin content of pregnancy urine and placenta of the chimpanzee, 593.
ALLEN, W. F. Studies on the depressor-cardiac reflex after vagotomy, 602.
ALLWEISS, M.D. See SOSKIN and ALLWEISS, 4.
ALVING, A. See VAN SLYKE, RHOADS, HILLER and ALVING, 387.
——. See RHOADS, VAN SLYKE, HILLER and ALVING, 392.
Anoxemia, methylene blue and, 580.
Atmospheric pressure, increased, respiratory activity under, 616.
—— ——, low, effect of, on glycogen, 273.
—— pressures, high, of oxygen, effect of, on man, 565.
Atrophy of denervated skeletal muscle, factors in, 8.
Auditory acuity, middle ear pressure and, 312.
Axon segmentation, 287.

BANTA, R. See RALLI, FLAUM and BANTA, 545.
BARKER, S. B., J. F. FAZIKAS and H. E. HIMWICH. A study of subcutaneous absorption in the adrenalectomized rat, 153.
BARKER, S. B. See HIMWICH, FAZIKAS, BARKER and HURLBURT, 348.
BARTLEY, S. H. The time of occurrence of the cortical response as determined by the area of the stimulus object, 666.
BEHNKE, A. R., F. S. JOHNSON, J. R. POPPEN and E. P. MOTLEY. The effect of oxygen on man at pressures from 1 to 4 atmospheres, 565.
BENEDICT, F. G. Degree of constancy in human basal metabolism, 521.
BIGURIA, F. and A. CANZANELLI. The effect of continued oral administration of histaminase and pancreatin on gastric secretion, 243.
Bile, effect of viosterol on calcium content of, 471.
BISHOP, G. H. See DOUGLASS, DAVENPORT, HEINBECKER and BISHOP, 165.
——. See O'LEARY, HEINBECKER and BISHOP, 636.
BLAIR, E. A. See ERLANGER and BLAIR, 287.
Block of cardiac impulse, 376.
Blood and plasma viscosity, 659.
—— clots, platelets and spontaneous syneresis of, 278.
—— flow and urea clearance, 387.
—— phosphate after glucose injections, 117.
—— picture in chronic CO poisoning, 611.
—— platelets in spontaneous syneresis of clots, 278.
—— pressure, carotid sinuses and depressor nerves in, 513.
—— ——, respiration and, periodic changes in, 464.
—— sugar response to insulin, liver function and, 488.
——, venous, hemoglobin in consecutive samples of, 37.
——, ——, red cells in consecutive samples of, 37.
BOLLMAN, J. L. See POLLACK, FLOCK and BOLLMAN, 105.

Bollman, J. L. See Pollack, Flock, Essex and Bollman, 97.
——. See Pollack, Flock, Mason, Essex and Bollman, 102.
——. See Pollack, Millet, Essex, Mann and Bollman, 117.
Bone marrow, rabbit, oxygen consumption of, 61.
Brockett, S. H., M. A. Spiers and H. E. Himwich. The lipid components of the lymph of the thoracic duct of the dog, 342.
Bronk, D. W. and L. K. Ferguson. The nervous control of intercostal respiration, 700.
—— and G. Stella. The response to steady pressures of single end organs in the isolated carotid sinus, 708.
Brown, M. G. See Sawyer and Brown, 620.
Bruhn, J. M. The respiratory metabolism of infrahuman primates, 477.
Brundage, J. T. Blood and plasma viscosity determined by the method of concentric cylinders, 659.
Bueker, E. D. See Schmitt, Kerr, and Bueker, 539.
Burns, H. S. and M. B. Visscher. The influence of various anions of the lyotropic series upon the sodium and chloride content of fluid in the intestine, 490.

Calorigenic action of anterior pituitary extracts, 584.
Canzanelli, A., R. Guild and D. Rapport. The use of ethyl alcohol as a fuel in muscular exercise, 416.
——, M. Segal and D. Rapport. The utilization of the calorigenic action of diiodothyronine and thyroxine in muscular exercise, 410.
——. See Biguria and Canzanelli, 243.
Cardiac. See *Heart*.
—— effects of monoiodoacetic acid and sodium cyanide, 56.
—— impulse, factors in block of, 376.
—— muscle, bound water in, in relation to ventricular fibrillation, 485.
—— rate, interrelations of vagal and accelerator effects on, 42.
Carotid sinus and depressor nerve in hypertension, 513.
—— ——, isolated, pressure receptors in, 708.
Carpenter, T. M., R. G. Hoskins and F. A. Hitchcock. Voluntarily induced increases in the rates of certain "involuntary" physiological processes of a human subject, 320.
Chimpanzee, diagnosis of pregnancy in, 597.
——, theelin of urine and placenta of, 593.
Circulation, peripheral, during experimental fever, 448.
——, regulation of, in hypothalamus, 137.
CO poisoning from illuminating gas, 611.
Cobb, D. M. See Fenn, Cobb, Hegnauer and Marsh, 74.
——. See Fenn, Cobb and Marsh, 261.
Colonic mucosa, exteriorized, muscular activity under, 123.
Cortical response, retinal stimulation and, 666.
Cowgill, G. R. See Roe, Gilman and Cowgill, 531.
Crampton, C. B. See Schneider and Crampton, 14.
Crisler, G. Methylene blue and anoxemia, 580.

Da Costa, E. See Davis, Da Costa and Hastings, 187.
Davenport, H. A. See Douglass, Davenport, Heinbecker and Bishop, 165.
Davis, J. E., E. Da Costa and A. B. Hastings. The effect of thyroxin on the tissue metabolism of excised frog heart, 187.
Degroat, A. F. See Green, Degroat and McDonald, 513.
Denervation, renal, effects of, 392.
Depressor-cardiac reflex after vagotomy, 602.
—— nerves, carotid sinuses and, in hypertension, 513.
Dextrose tolerance curve, hypoglycemic phase of, 4.
Diabetes insipidus, experimental, 439.
Diabetic hyperpyrexia, 19.

DIDDLE, A. W. See ALLEN, DIDDLE and ELDER, 593.
Diiodothyronine and thyroxine in muscular exercise, 410.
DOUGLASS, T. C., H. A. DAVENPORT, P. HEINBECKER and G. H. BISHOP. Vertebrate nerves: Some correlations between fiber size and action potentials, 165.
DRINKER, C. K. See FIELD, LEIGH, HEIM and DRINKER, 174.
DUBOIS, D. See HIMWICH, FAZIKAS, NAHUM, DUBOIS, GREENBURG and GILMAN, 19.
——. See HIMWICH, GOLDFARB, RAKEITEN, NAHUM and DUBOIS, 352.

EAR pressure, middle, and auditory acuity, 312.
ELDER, J. H. See ALLEN, DIDDLE and ELDER, 593.
ERLANGER, J. and E. A. BLAIR. Manifestations of segmentation in myelinated axons, 287.
ESSEX, H. E. See POLLACK, FLOCK, ESSEX and BOLLMAN, 97.
——. See POLLACK, FLOCK, MASON, ESSEX and BOLLMAN, 102.
——. See POLLACK, MILLET, ESSEX, MANN and BOLLMAN, 117.
Ethyl alcohol, use of, as fuel in muscular exercise, 416.
EVANS, G. The effect of low atmospheric pressure on the glycogen content of the rat, 273.
Eye, lipids of, 182.
EYSTER, J. A. E., F. MARESH and M. R. KRASNO. The nature of the R wave potentials in the tortoise and frog heart, 422.

FAT, liver, of depancreatized dogs fed lecithin and pancreas, 545.
FAZIKAS, J. F. See BARKER, FAZIKAS and HIMWICH, 153.
——. See HIMWICH, FAZIKAS, BARKER and HURLBURT, 348.
——. See HIMWICH, FAZIKAS, NAHUM, DUBOIS, GREENBURG and GILMAN, 19.

THE AMERICAN JOURNAL OF PHYSIOLOGY

VOLUME 110

BALTIMORE, MD.
1934–1935

CONTENTS

No. 1. November, 1934

The Effect of Parathormone on Basal Metabolism of Normal Dogs. *I. E. Steck, D. S. Miller and C. I. Reed* 1

The Hypoglycemic Phase of the Dextrose Tolerance Curve. *S. Soskin and M. D. Allweiss* 4

The Influence of Fasting and Environmental Temperature upon the Atrophy of Denervated Skeletal Muscle. *H. M. Hines and G. C. Knowlton* 8

The Effect of Posture on the Minute Volume of the Heart. *Edward C. Schneider and C. B. Crampton* 14

Diabetic Hyperpyrexia. *H. E. Himwich, J. F. Fazikas, L. H. Nahum, D. DuBois, L. Greenburg and A. Gilman* 19

The Relation of the Secretion of Mucus to the Acidity of the Gastric Juice. *O. M. Helmer* 28

The Variation of Erythrocytes, Hemoglobin and Packed Cell Volume in Immediately Consecutive Samples of Venous Blood. *Orville S. Walters* 37

The Interrelations of Vagal and Accelerator Effects on the Cardiac Rate. *A. Rosenblueth and F. A. Simeone* 42

The Effect of Injection of Monoiodoacetic Acid and Sodium Cyanide on the Mammalian Heart. *L. H. Nahum and H. E. Hoff* 56

The Oxygen Consumption of Rabbit Bone Marrow in Relation to Its Morphology. *Charles O. Warren, Jr* 61

Electrolytes in Nerve. *W. O. Fenn, Doris M. Cobb, A. H. Hegnauer and B. S. Marsh* 74

Phosphorus Compounds in the Perfused Heart of the Dog. *Herbert Pollack, Eunice Flock, Hiram E. Essex and Jesse L. Bollman* 97

Changes in the Phosphorus Compounds in the Perfused Hind Limb of the Dog. *Herbert Pollack, Eunice Flock, Paul Mason, Hiram E. Essex and Jesse L. Bollman* 102

Compounds of Phosphorus in the Heart and Striated Muscles of the Dog: Methods of Determination and Normal Values. *Herbert Pollack, Eunice Flock and Jesse L. Bollman* 105

Serum Phosphate Changes Induced by Injections of Glucose into Dogs under Various Conditions. *Herbert Pollack, Roscoe F. Millet, Hiram E. Essex, Frank C. Mann and Jesse L. Bollman* 117

Intestinal Activity in the Exteriorized Colon of the Dog. *Theodore Raiford and Michael G. Mulinos* 123

The Myenteric Reflex as Exhibited by the Exteriorized Colon of the Dog. *Theodore Raiford and Michael G. Mulinos* 129

The Intrinsic Regulation of the Circulation in the Hypothalamus of the Cat. *Carl F. Schmidt with the technical assistance of Samuel Thompson* 137

A Study of Subcutaneous Absorption in the Adrenalectomized Rat. *Samuel B. Barker, Joseph F. Fazikas and Harold E. Himwich* 153

Reaction of the Anterior Pituitaries of Immature Female Rats to Injection of Pregnancy Urine Extracts. *J. M. Wolfe* 159

Vertebrate Nerves: Some Correlations between Fiber Size and Action Potentials. *T. C. Douglass, H. A. Davenport, P. Heinbecker and G. H. Bishop* 165
The Protein Content and Osmotic Pressure of Blood Serum and Lymph from Various Sources in the Dog. *M. E. Field, O. C. Leigh, Jr., J. W. Heim and C. K. Drinker* 174
The Lipids of the Sclera, Cornea, Choroid and Iris. *Arlington C. Krause* 182
The Effect of Thyroxin on the Tissue Metabolism of Excised Frog Heart. *J. E. Davis, Esther Da Costa and A. Baird Hastings* 187
The Stimulation of Peripheral Nerve-Elements Subserving Pain-Sensibility by Intra-arterial Injections of Neutral Solutions. *Robert M. Moore* 191
The Response of the Canine and Human Pancreas to Secretin. *H. Greengard, W. L. Voegtlin and A. C. Ivy* 198
Supernormality, a Modification of the Recovery Process in Nerve. *Helen Tredway Graham* 225
The Effect of Continued Oral Administration of Histaminase and Pancreatin on Gastric Secretion. *Fernando Biguria and Attilio Canzanelli* 243

No. 2. December, 1934

The Physiological Production of Sympathin in the Liver. *G. P. Whitelaw and J. C. Snyder* 247
A Study of the Intragastric Factors in the Regulation of Gastric Acidity. *Charles M. Wilhelmj, Leo C. Henrich and Frederick C. Hill* 251
Sodium and Chloride in Frog Muscle. *W. O. Fenn, Doris M. Cobb and B. S. Marsh* 261
The Effect of Low Atmospheric Pressure on the Glycogen Content of the Rat. *Gerald Evans* 273
Platelets and the Spontaneous Syneresis of Blood Clots. *Leandro M. Tocantins* .. 278
Manifestations of Segmentation in Myelinated Axons. *Joseph Erlanger and E. A. Blair* 287
Middle Ear Pressure and Auditory Acuity. *Eva Thompson, Howard A. Howe and Walter Hughson* 312
Voluntarily Induced Increases in the Rates of Certain "Involuntary" Physiological Processes of A Human Subject. *T. M. Carpenter, R. G. Hoskins and F. A. Hitchcock* 320
Basal Metabolism in Old Age. *James R. Matson and F. A. Hitchcock* 329
The Lipid Components of the Lymph of the Thoracic Duct of the Dog. *Susan H. Brockett, Mary A. Spiers and Harold E. Himwich* 342
The Metabolism of Tissues Excised from Adrenalectomized Rats. *H. E. Himwich, J. F. Fazikas, S. B. Barker and M. H. Hurlburt* 348
The Respiratory Quotient of Muscle of Depancreatized Dogs. *H. E. Himwich, W. Goldfarb, N. Rakeiten, L. H. Nahum and D. DuBois* 352
Capacity of Skeletal Muscle in Rats to Maintain Work Output. *W. T. Heron, W. M. Hales and D. J. Ingle* 357
Reciprocal Changes in Reflex Activity of the Fore Limbs Induced by Post-Brachial "Cold-Block" of the Spinal Cord. *T. C. Ruch and J. W. Watts* 362
Factors Determining Block of the Conducted Cardiac Impulse. *A. S. Gilson, Jr.* 376
The Time Curve after Insulin. *M. Caroline Hrubetz* 384
The Relationship of the Urea Clearance to the Renal Blood Flow. *D. D. Van Slyke, C. B. Rhoads, Alma Hiller and Alf Alving* 387
The Effects of Novocainization and Total Section of the Nerves of the Renal Pedicle on Renal Blood Flow and Function. *C. P. Rhoads, D. D. Van Slyke, Alma Hiller and Alf S. Alving* 392

The Electrical Excitability of the Nictitating Membrane. *F. A. Simeone and A. Rosenblueth* 399
The Utilization of the Calorigenic Action of Diiodothyronine and Thyroxine in Muscular Exercise. *Attilio Canzanelli, Maurice Segal and David Rapport* 410
The Use of Ethyl Alcohol as a Fuel in Muscular Exercise. *Attilio Canzanelli, Ruth Guild and David Rapport* 416
The Nature of the R Wave Potentials in the Tortoise and Frog Heart. *J. A. E. Eyster, Frank Maresh and M. R. Krasno* 422
Experimental Diabetes Insipidus: Its Relation to the Anterior and Posterior Lobes of the Hypophysis. *Curt P. Richter* 439
Peripheral Circulation During Experimental Fever. *James O. Pinkston* 448
The Quantitative and Qualitative Ovarian Response to Distributed Dosage with Gonadotropic Extracts. *L. C. Maxwell* 458
The Effect of Periodic Changes in Amplitude of Respiration upon Blood Pressure. *Conn Fenning* 464
The Effect of Viosterol on the Calcium Content of Dog's Bile. *K. K. Jones and G. H. Laing* 471
The Respiratory Metabolism of Infrahuman Primates. *John M. Bruhn* 477
Bound Water in Cardiac Muscle in Relation to Ventricular Fibrillation. *N. D. Kehar and E. V. McCollum* 485
Effect of "Chronic" Experimental Liver Damage on the Blood Sugar Response to Insulin. *Randall J. Sprague* 488
The Influence of Various Anions of the Lyotropic Series upon the Sodium and Chloride Content of Fluid in the Intestine. *Herschel S. Burns and Maurice B. Visscher* 490
Pregnancy Urine Given by Mouth to Gonadectomized Rats: Its Effect on Spontaneous Activity and on the Reproductive Tract. *Curt P. Richter* 490

No. 3. January, 1935

Observations on Denervation of the Carotid Sinuses and Section of the Depressor Nerves as a Method of Producing Arterial Hypertension. *M. F. Green, Albert F. Degroat and C. H. McDonald* 513
Degree of Constancy in Human Basal Metabolism. *Francis G. Benedict* 521
A Study of the Oxidation That Occurs in the Dog After the Ingestion of Galactose. *Joseph H. Roe, Alfred Gilman and George R. Cowgill* 531
The Gaseous Metabolism of Frog Kidney. *Francis O. Schmitt, Ruth Sidebotham Kerr and Elmer D. Bucker* 539
The Results of Feeding Lecithin and Pancreas in Depancreatized Dogs on the Liver Fat and Its Saponifiable and Unsaponifiable Fractions. *Elaine P. Ralli, Gerald Flaum and Raymond Banta* 545
On the Variability of the H/T Ratio in the Twitch of Isolated Skeletal Muscle and the Proof of the Validity of the Method Used for Measuring Heat Production. *Charles D. Snyder* 552
The Effect of Oxygen on Man at Pressures from 1 to 4 Atmospheres. *Albert R. Behnke, Fenimore S. Johnson, John R. Poppen and E. Preble Motley* 565
The Tyrosine Content of Tissues After Intravenous Injection. *Francis B. King, Robert Simonds and Mark Aisner* 573
Methylene Blue and Anoxemia. *George Crisler* 580
Effects of Thyroparathyroidectomy and Carbohydrate Intake on the Action of Anterior Pituitary Extracts. *O. H. Gaebler* 584
Theelin Content of Pregnancy Urine and Placenta of the Chimpanzee. *Edgar Allen, A. W. Diddle and J. H. Elder* 593

The Aschheim-Zondek Diagnosis of Pregnancy in the Chimpanzee. *S. Zuckerman.* 597
Studies on the Depressor-Cardiac Reflex After Vagotomy. *William F. Allen.* 602
Blood Picture, Reproduction, and General Condition During Daily Exposure to Illuminating Gas. *Isabella R. Williams and Erma Smith.* 611
The Effect of Increased Air Pressure on Vital Capacity, Expiratory Force and Breath-Holding Ability. *Charles W. Shilling, Raymond A. Hansen and James A. Hawkins.* 616
The Effect of Thyroidectomy and Thyroxine on the Response of the Denervated Heart to Injected and Secreted Adrenine. *M. E. MacKay Sawyer and M. G. Brown.* 620
Analysis of Function of a Nerve to Muscle. *James O'Leary, Peter Heinbecker and George H. Bishop.* 636
Blood and Plasma Viscosity Determined by the Method of Concentric Cylinders. *John T. Brundage with the occasional assistance of Irving Grobman.* 659
The Time of Occurrence of the Cortical Response as Determined by the Area of the Stimulus Object. *S. Howard Bartley.* 666
The Nature of Ventricular Fibrillation Following Electric Shock and Its Prevention by Acetyl-β-Methyl Choline Chloride. *H. E. Hoff and L. H. Nahum.* 675
Some Influences of Oestrin on the Hypophyseal-Gonad Complex of the Immature Female Rat. *C. E. Lane.* 681
On the Inhibition of Gastric Secretion by Oil of Peppermint. *H. Necheles and Jacob Meyer.* 686
Separation of a Thyrotropic from the Gonadotropic Substances of the Pituitary. *Roy O. Greep.* 692
The Nervous Control of Intercostal Respiration. *D. W. Bronk and L. K. Ferguson.* 700
The Response to Steady Pressures of Single End Organs in the Isolated Carotid Sinus. *D. W. Bronk and G. Stella.* 708
Index. 715
